SAN NICOLAS COMMUNITY PAPER

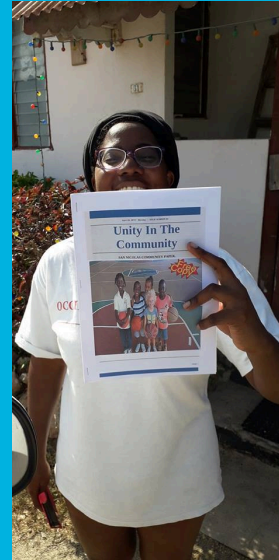

Paintings Speaking For Mother Nature

RIP Padú del Caribe a great legend. Padú del Caribe was an Aruban musician and songwriter who had been recording and composing for several decades. He wrote "Aruba Dushi Tera", a waltz that is now the national anthem for Aruba and was long a rallying cry for separation from the Netherlands Antilles, which was achieved in 1986.

San Nicolas Christmas Ham Secret Recipe

SIMPLY DELICIOUS PINEAPPLE-GLAZED HAM

Ingredients:

1 cooked, smoked bone-in ham(spiral cut) (about 10 pounds)

2 cups pineapple juice

1 cup light-brown sugar

1/4 cup Dijon Mustard

Preheat oven to 325°F

Place ham in a pan (do not use seasoning packet that comes with ham) and roast for 1 hour or until the thickest part of the ham reads 140° F

Meanwhile, make a glaze by bringing pineapple juice, brown sugar, and mustard to a boil in a medium saucepan over medium-high heat. Gently boil until thickened and reduced by about half, about 30 minutes.

Brush ham with glaze and roast for 15 minutes. Then repeat, for a total roasting time of 30 minutes. Remove ham from oven and let sit for 15 minutes.

Serve and enjoy.

Tunita Factory Store & San Nicolas Plastic Recycle Center

During the 1st San Nicolas Business Summit held on Augustus 21, 2019 in the St Theresita Convention Center Mr. Andres (Andy) Hernandez presented as one of the investors in San Nicolas which investment with tangible result will be ready during the first coming six (6) months (September '19 – April '20).

Friday November 29,'19 was the magical date for the Hernandez Family, employees of the Arupro Chemical Agencies and friends.

A building, constructed for 90% out of recycle material (sea containers and other scrap metal) houses the Tunita Factory Store and the receiving center for the San Nicolas Plastic Recycle Center.

The ripping of the recycled paper “ribbon” was executed by Her Excellency the Minister of Economic Affairs Ms. Xiomara Ruiz-Maduro and the Minister of Sustainability His Excellency dr. Rudy Lampe.

On Saturday November 30, '19 the Tunita Factory Store and Recycle Center open their doors for the community in general. Tunita Factory Store offers all forty (40) Eco Friendly products, produced locally in the Arupro Chemical Factory right here in San Nicolas with the most famous Citronella. Arupro maintain a return policy on all Arupro plastic bottles,

one will receive a credit note for the returned bottles or the bottle would be rinsed and refilled with the desire ecofriendly product.

In the Center of the Tunita Factory Store stands a large grey scale to weigh the delivered plastic. In the beginning one will receive a credit note for the amount of plastic collected and delivered at the recycle center. Following the Arupro plans, in April 2020 the factory will start turning the plastic in the fumes and then in to liquid to be used as tire shine. Arupro will keep us all posted and involved on their developments.

During the coming period San Nicolas and Aruba will be informed on prices, specials, products and much more.

Let you and I start collecting the plastics bottles and let us start by keeping San Nicolas and Aruba in general plastic free.

We the family of “Unity in the Community Foundation” will like to use this opportunity to welcome the Tunity Factory Store and the San Nicolas Plastic Recycle Center and congratulate the Hernandez Family, Arupro Chemical Agencies and Aruba specially the San Nicolas Community.
